SUMMARY

I'm a Full Stack Developer and Electronic & Network Engineer, combining hands-on software development with formal engineering education and professional technical experience.

I build web applications using JavaScript, React, Node.js, Express, PostgreSQL, and REST APIs, with practical experience in Git, Docker, and CI/CD. I also use AI-powered development tools to improve productivity and accelerate problem-solving while applying independent technical judgment and maintaining code quality.

My background in engineering, networking, and infrastructure gives me a broader perspective on software reliability, system architecture, and security.

EXPERIENCE

Freelance — Full Stack Developer | 2025–Present
Remote

- Develop web applications using JavaScript, React.js, Node.js, Express, and PostgreSQL.
- Build reusable frontend components and integrate REST APIs.
- Implement application features, backend functionality, and database interactions.
- Use Git and AI-assisted development tools to support efficient workflows while reviewing code and making informed technical decisions.

Back-End Web Developer — Gobernación de Santander | 2023–2024
Colombia

- Developed and maintained web application functionality using JavaScript and REST APIs.
- Integrated APIs to retrieve, process, and update application data.
- Implemented data validation and error handling to improve application reliability and data integrity.
- Worked with frontend components and API integrations to support communication between the user interface and backend services.
- Supported application testing, troubleshooting, and ongoing maintenance.

Network & IT Support Engineer — ENDE ANDINA, DIMA Ltda | 2016–2022
Bolivia

- Supported server administration and IT infrastructure operations, contributing to system reliability and availability.
- Diagnosed and resolved technical issues involving system connectivity, performance, and service availability.
- Managed user access and system configurations, supporting secure and reliable IT operations.
- Collaborated with IT teams to troubleshoot incidents and maintain stable technical environments.

PROJECTS

App BiT

Web application for exploring digital inequality through interactive maps, data visualizations, and PDF reports. Developed as part of a collaborative team project.

Technologies: React, Node.js, Express, PostgreSQL, Supabase, REST APIs.

FoodApp – Bolivian Market

Built a full-stack e-commerce app for traditional Bolivian food, featuring product search, shopping cart, user authentication, online payments, and an admin dashboard.

Technologies: React, Node.js, Express, PostgreSQL, REST APIs, Docker, GitHub Actions.

Gobernación de Santander – Web Platform for the Management and Tracking of Auditing Projects

Developed and maintained web application features using JavaScript and REST APIs. Integrated APIs to retrieve and update data, implementing validation and error handling to improve reliability and data integrity. Supported testing, troubleshooting, and ongoing maintenance of the application.

Technologies: JavaScript, REST APIs.

EDUCATION

UNIVALLE | February 2026–July 2026
Postgraduate Diploma in Full Stack Web Development | Bolivia

Completed a Full Stack Web Development program focused on Angular, TypeScript, JavaScript, PHP, and Docker, with hands-on web development practice.

No Country Academy | 2024–2026
Full Stack Web Developer | Argentina

Participated in team-based projects through a work simulation program, developing web features with React and JavaScript, integrating REST APIs, and working with Node.js, Express, and PostgreSQL.

Soy Henry Academy | 2022–2023
Full Stack Web Developer | Argentina

Completed an intensive Full Stack Web Development bootcamp, building web applications with JavaScript, React, Node.js, Express, and PostgreSQL. Practiced CRUD operations, API testing with Postman, version control with GitHub, and teamwork using Scrum and Jira.

Universidad Mayor de San Simón | 2015
Bachelor's Degree in Electronic Engineering | Bolivia

Studied networking, telecommunications, and engineering principles, developing strong analytical and technical problem-solving skills.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript (Basic), React.js, Angular (Basic), Vite, Redux, Tailwind CSS.

Backend: Node.js, Express.js, REST APIs, SQL, Sequelize, PostgreSQL.

DevOps & Tools: Git, GitHub, GitHub Actions, Docker, CI/CD, Postman, AI-Assisted Development.

Infrastructure & Security: Network Security, TCP/IP, Routing & Switching, IT Infrastructure.

ADDITIONAL SKILLS

Problem-Solving, Analytical Thinking, Debugging, Root Cause Analysis, Agile Collaboration, Scrum, Continuous Learning.

LANGUAGES

Spanish (Native), English (Intermediate).

CERTIFICATIONS

- Leadership in Emotional Intelligence in Organizations, Cimara de Industria y Comercio de Potosí — 2020
- Soft Skills - Expert in Business Skills, CAINCO Chuquisaca - Cimara de Industria y Comercio de Potosí — 2020
- Postgraduate Certificate in Higher Education Teaching, Universidad Mayor de San Simón — 2018
- Dell EMC Partner Program Server Credential — 2018
- Aruba Certified Mobility Professional, Aruba Networks — 2017
- HPE Sales Certified - Hybrid IT Solutions, HPE — 2019
- Cisco Certified Network Associate Routing & Switching 200-125 CCNA — 2017
